1 BUSINESS ECONOMY IN SURAT

A major portion of Surat's revenue is generated by the food industry. The city is widely known for its extensive food industrial zones, which include both small-scale enterprises and large food manufacturing companies.

Due to its strategic location near major cities such as Mumbai and Ahmedabad, Surat attracts many businesses to establish their operations here. This advantage has significantly contributed to the rapid growth of the food industry in recent years.

2 BUYER & SELLER MEET

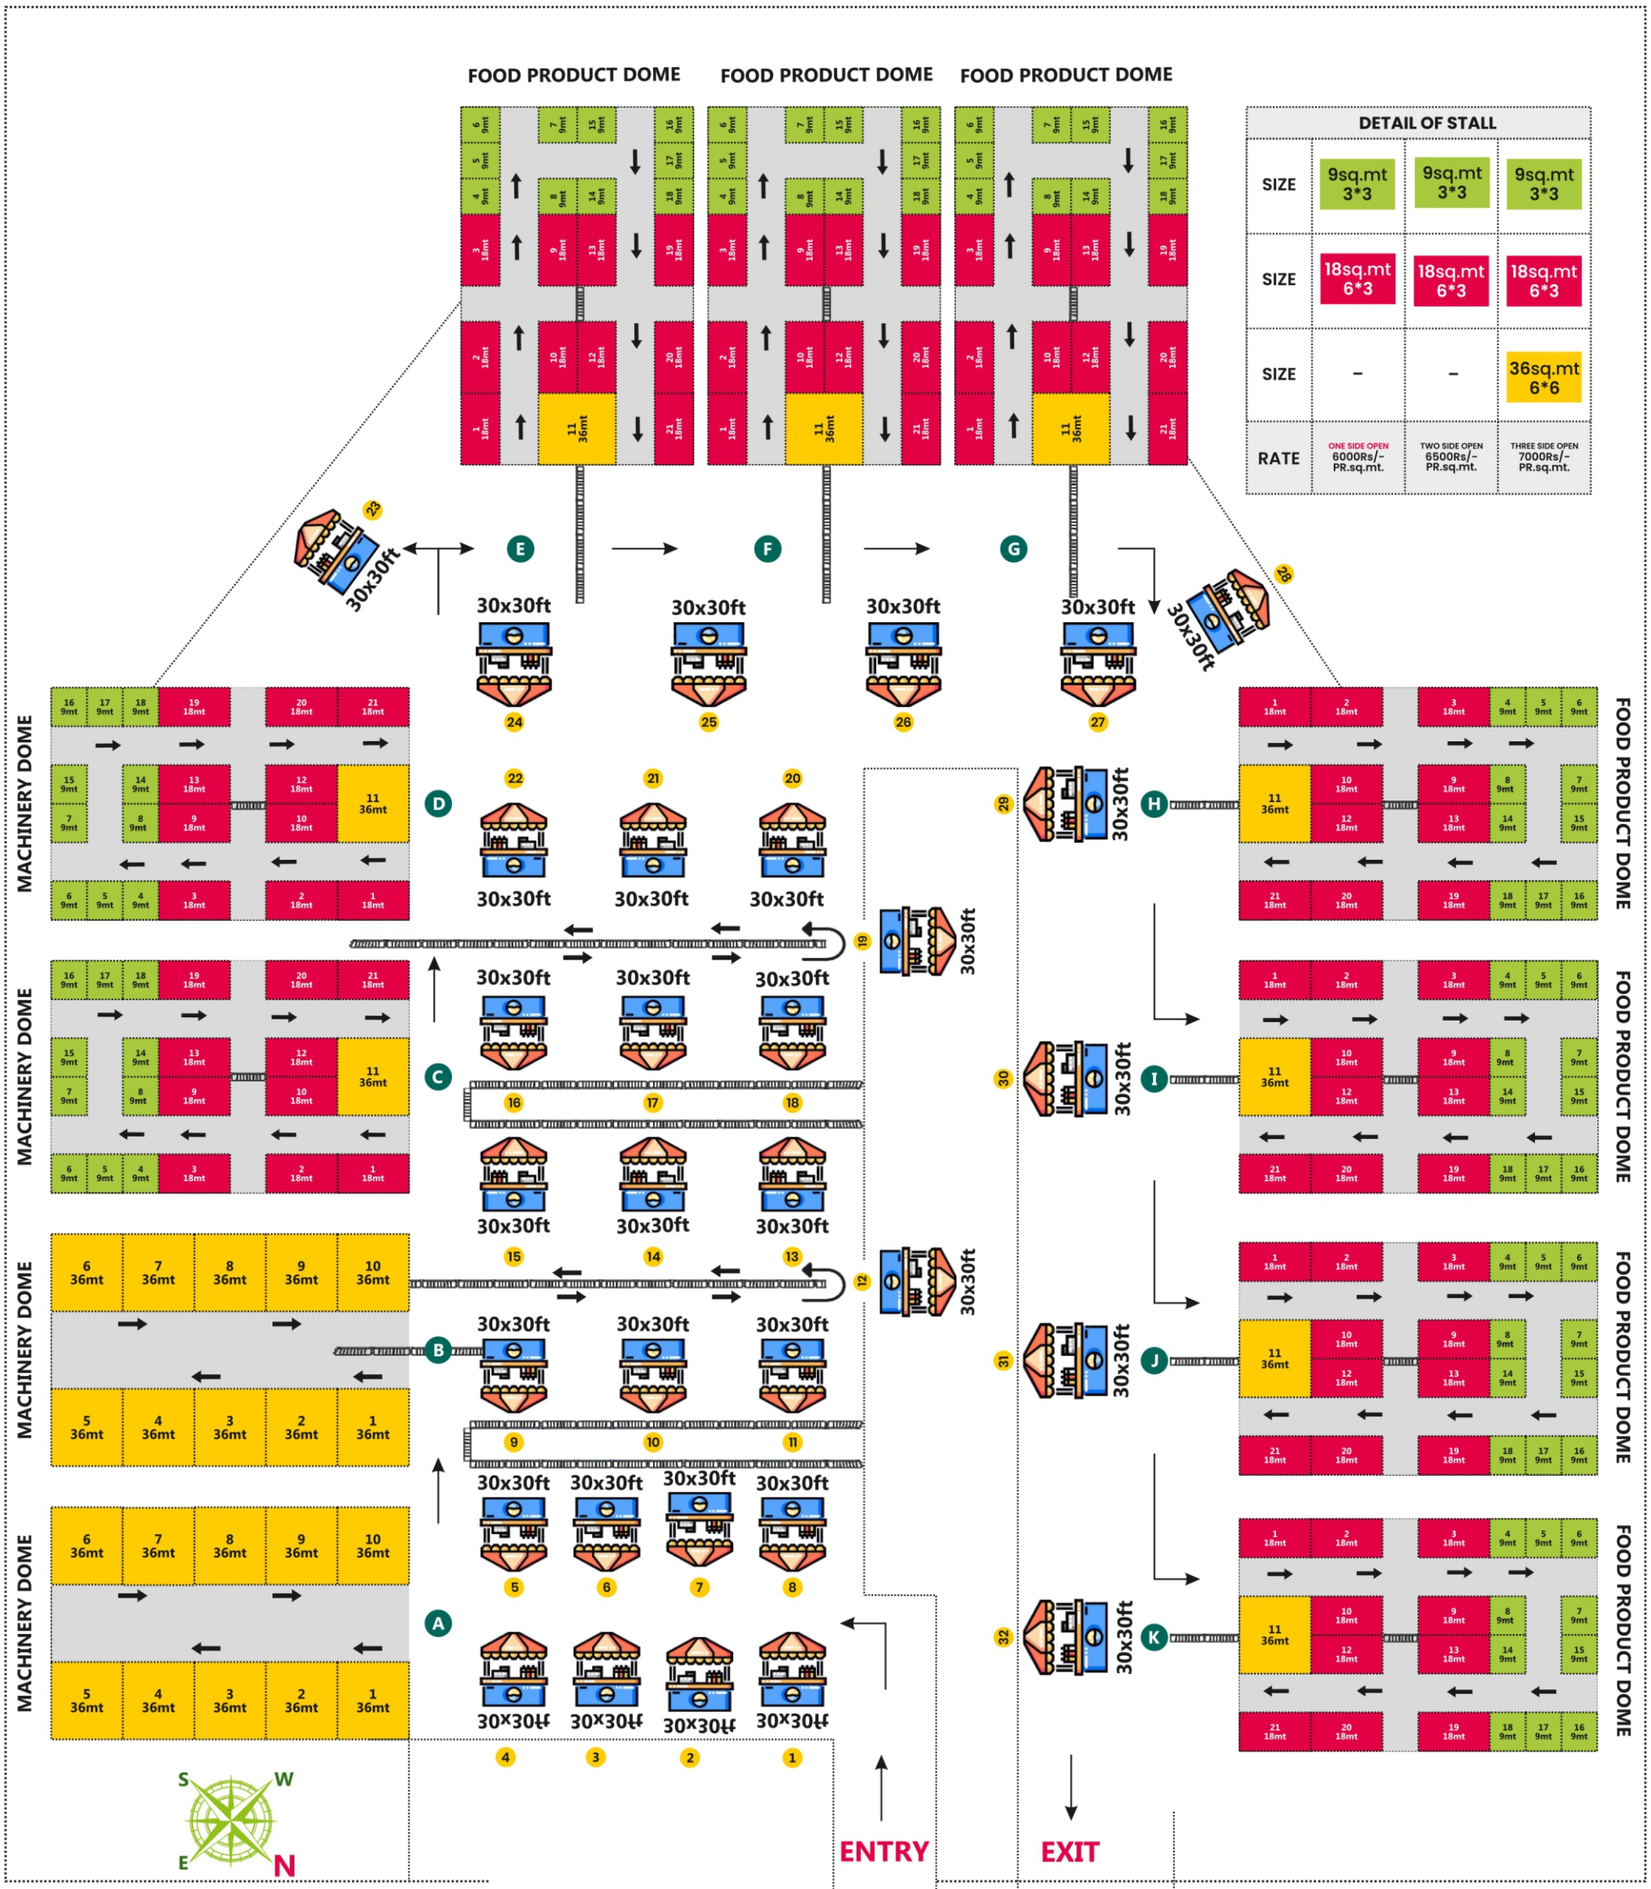

This section serves as a networking platform for national and international buyers looking to source industrial products and discover new technologies.

The Buyer & Seller Meet allows both parties to connect directly, build strong business relationships, and finalize deals efficiently. Such interactions not only support business growth but also contribute to the overall development of the industry and the nation.
